

Windsor Door

America's Choice Since 1964

STEEL WOOD SERIES

Our SteelWood Series door is a hybrid of style and performance. Made of quality steel and textured in a natural wood appearance, Steel Wood gives a custom look without any of the maintenance required for real wood. The R-value for this series with the available/optional insulation starts at 6.0 which is great for detached or non-heated garages.

STEEL WOOD SERIES Features

Strong by Design

End and center stiles are constructed with galvanized steel, providing superior strength and resistance to rust corrosion.

A Clean Finish

The flush steel interior gives the door a cleaner look while adding strength, sound resistance, and energy values.

Protection from the Elements

Tongue and groove join construction seals and aligns the sections providing a snug, weather tight fit

Keep the Outdoors Outside

The bulb-type vinyl bottom weather seal fits tight against the floor sealing out moisture, light, and energy leaks.

Smooth Operation

Galvanized steel hinges and self-lubricating rollers are designed for long life and smooth, quiet operation.

Beat the Hot and Cold

An optional CFC-FREE laid-in-place polystyrene foam insulation is bonded to a white vinyl interior to provide a 6.0 R-Value.
